EXPERIENCED ASSOCIATES USE STATE-OF-THE-ART TOOLS AND TECHNIQUES TO ENABLE CLIENTS TO ACHIEVE SUCCESS.

Project Management Training

COURSE TITLE: NIMA AND THE CONGRESSIONAL BUDGETING PROCESS (NCBP)

Course Objectives Duration 3 Days

- Legislative Branch budgeting basics
- How the Congressional Budget Justification Book (CBB) is used as an integral part of NIMA's input to the President's budget request
- How to improve NIMA/Congressional interactions to enhance corporate responsiveness to Congressional inquiries and direction
- Lessons learned from personnel directly involved in the NIMA/Congressional budgeting cycle

Learning Activities

This course is designed to enhance NIMA acquisition managers' understanding of the Congressional budgeting process. Participants will benefit from directly interacting with government and industry representatives who are currently working within this process. Additional benefits are improved insight into the theory and application of Congressional budgeting practices associated with budget inputs and passage of an appropriations bill. A significant part of the course deals with Congressional oversight and improving the COTR/PM's responsiveness to Congressional inquiries. An additional course benefit is a trip to Capitol Hill and a working lunch where the participants can speak with Congressional staff and others involved in this process.
